

WG-748 DEXCUT®

Wonder Grip® WG-748 Dexcute® is the latest innovation from Wonder Grip® combining the highest level of cut protection according to ISO13997, a double protection against thermal hazards and an outstanding secured grip thanks to our Wonder Grip Technology™. The lightweight, fleece liner, coated down to the wrist, provides strong water and cold resistance with exceptional anti-wear properties. WG-748 Dexcute® also delivers very high protection against cut hazards (ISO13997 lvF) yet offers impressive comfort thanks to the combination of flexible HPPE properties with very high multifilament wrapping technology. This solution is a unique solution for professionals seeking a glove able to keep the hands dry, and warm, while protecting them from contact heat and lacerations, making it the ideal choice for the most challenging outdoor winter jobs.

KEY FEATURES

- ✓ Soft yet robust technical liner, engineered to offer protection against the cold and heat, as well as cut level A6/F protection
- ✓ Cold-resistant and liquid-repellent for working in challenging environments, offering a comfortable tactile sensation and improved grip
- ✓ Made of two layers of soft acrylic, the aerated liner keeps the heat released by the wearer inside the glove, eliminating heat loss due to the convection process.
- ✓ Exceptional anti-wear properties and double protection against thermal hazards.

TYPE OF PROTECTION

- Cut resistance
- Heat resistance
- Cold resistance
- Liquids

APPLICATIONS

- Airports and ports
- Waste management
- Public authorities
- Glass
- Construction-and-public-works

NORMS AND CERTIFICATIONS
